

The South of Barú Island

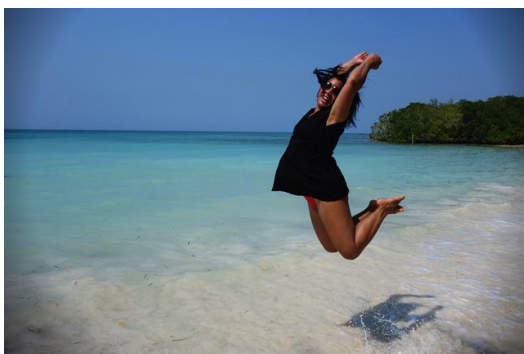

Area Description:

Baru, Rosario and San Bernardo Islands are located south west of Cartagena and were discovered in 1501 by Rodrigo de Bastidas. Their most important villages are: A rarca, Santana, Barú, Orika, Islote, Múcura and Ceycén. The most of the people of these villages live by fishing and tourism. Here you will find the Natural Park Corales del Rosario and San Bernardo. It has an area of 1,200 km² and the coral areas cover 192 km². Some of their lagoons as Mohan, Pelao and Cholon belong also to the national park.

Physicality, Travel Style & Cultural Shock:

These are our least demanding trips. These trips involve little activity and are suitable for people with a basic level of fitness and good health. The itinerary takes place in remote areas (with basic facilities); involve various types of transport and unpaved roads. Be prepared for potential variable weather conditions (Rain during May to November).

Take in account that within Dec 26 to Jan 12 in Colombia, all the nice beaches, most of the time, are crowded (They're open to everyone) which makes it pretty fun and for sure we'll do our best to make you enjoy your beach time.

Due to the nature of the activities undertaken in this trip, pregnant women, children unaccompanied by their parents or legal guardians are not allowed.

What To Bring:
